Allegiant Restricted Articles List

Article Type	Examples	Carry-On Bag	Checked Bag	Additional Information	Article Examples
Alcohol (More than 3.4 oz)		No	Yes**	**Limitations: -Less than 70% alcohol content (140 proof) -Must be in unopened retail packaging -For carry-on baggage, liquids must comply with TSA 3-1-1 rule for carrying liquids -Alcohol between 24% (48 proof) and 70% (140 proof) in checked baggage is limited to five (5) liters per passenger -Passengers may not consume their own alcohol while on board.	
Ammunition		Yes**	Yes**	**Ammunition Limitations: -Up to a total gross weight 11 (eleven) pounds per passenger -Must be in the manufacturer's original container or equivalent container specifically designed to carry ammunition. Container must provide sufficient carrifoges eparation -Only cartridges up to 19.1 mm (0.75 caliber) or shotgun shells may be accepted for transport	9mm Luger 115 Grs. FMJ
	Animal or Human organs, tissues, blood, blood products, human cells, materials				
Biohazards and Infectious Substances Camping and Outdoor Equipment	containing pathogens, etc. Animal repellent (bear, deer spray), camp stove fuel, seam sealers for tents, strike anywhere matches, emergency flares, etc. Avalance rescue backpack, personal oxygen	No	No No	Forbidden from transport. Includes all flammable solids, liquids, and gases, including, but not limited to: butane, propane, kerosene, gasoline, hexamine, etc. "Strike Anywhere" matches and lighter fluid are forbidden from transport. Pressurized transk; cylinders, including liquid/compressed oxygen cylinders* and chemical oxygen generators are forbidden from transport. Products such as "canned oxygen," "recreational oxygen" and "flavored oxygen" are also forbidden. *Portable oxygen concentrators (POCs) may be carried in carry-on baggage or checked baggage. Please visit Allegiant FAQ's for additional information,	
Compressed Gases / Pressurized Containers	tanks, scuba tanks, paintball guns, etc.	No	No	forms, and requirements.	
Dry ice		Yes**	Yes**	**Customer Service Agent must be notified during check-in **Limitations: -May not weigh more than 5.5 lbs. (2.5 kg) per package and per passenger -Must NOT be in an air-tight container. Styrofoam or other plastic foam containers are not acceptable for items that may leak during transport **Package must be marked with: -Ory lice" or "Carbon Dioxide, Solid" -Net weight of dry ice -Contents of package	
	Batteries (dry cell), spare	Yes	Yes	Includes typical non-lithium dry batteries (alkaline, nickel metal hydride, nickel cadmium, etc.) in the most common sizes: AA, AAA, C, D, button cell, 9-volt, etc. Batteries must be protected from damage.	
				Batteries with more than 160 watt-hours are forbidden from transport. Damaged or recalled batteries are forbidden from transport. **Umitations: -Must be protected from damage and short circuit -Protection methods include: leaving the batteries in their retail packaging, covering battery terminals with electrical tape, using a battery case, using a battery sleewe/pocket in a camera bag, or putting them snugly in a plastic bag or protective pouch **Size Limits for Uthium Batteries: -Lithium metal (non-rechargeable) batteries: 2 grams of lithium per battery -Lithium in (rechargeable) batteries: rating less than 100 watt hours (Wh)	
	Batteries (lithium), spare	Yes**	No	Per battery (2 maximum) Exception for wheelchairs or assistive device. Please see "Mobility Aids"	
	Batteries (wet cell), spare Battery-Powered Lighters	No Yes**	No No	**May be carried in carry-on baggage or on your person only when the device is protected from accidental activation. Protective measures accidental activation. Protective measures . Removing the battery Placing the lighter into a protective case Using a protective cover, latch, or locking device on the activation button	
Electronic Devices		Yes**	Yes**	**Limitations: A. Carry-on Baggage: -Lithium battery does not exceed 100 watt hours (Wh) -Any signal transmitting capabilities must be able to be turned off B. Checked Baggage: -Lithium battery must be removed and carried in the aircraft cabin -Lithium battery does not exceed 100 watt hours (Wh) **Batteries, fuel cells, and parachute systems must be removed from the drone in order to be accepted for transport. Owners should consult their operator manuals prior to travelline.	
	Drones Electronic Smoking Devices (cigars, e-cigarettes, pipes, vapor, etc.) Hoverboards / Self-balancing devices	Yes** Yes**	No No	**May be carried in carry-on baggage or on your person. These items are not allowed to be used onboard any flight, nor may they be recharged while on the aircraft. Forbidden from transport. Includes, but is not limited to: electric skateboards, balance gliders, hoverboards or self-balancing boards, etc.	
	Portable Electronic Devices	Yes**	No	**Must be transported in carry-on baggage or on your person. Includes, but is not limited to: cameras, phones, laptops, tablets, hand-held games, watches, etc. Damaged or recalled batteries and devices are forbidden from transport.
