

Article Type	Examples	Carry-On Bag	Checked Bag	Additional Information
 <p>Alcohol (More than 3.4 oz)</p>		No	Yes**	<p>**Limitations:</p> <ul style="list-style-type: none"> -Less than 70% alcohol content (140 proof) -Must be in unopened retail packaging -For carry-on baggage, liquids must comply with TSA 3-1-1 rule for carrying liquids -Alcohol between 24% (48 proof) and 70% (140 proof) in checked baggage is limited to five (5) liters per passenger -Passengers may not consume their own alcohol while on board
 <p>Ammunition</p>		No	Yes**	<p>**Ammunition Limitations:</p> <ul style="list-style-type: none"> -Up to a total gross weight 11 (eleven) pounds per passenger -Must be in the manufacturer's original container or equivalent container specifically designed to carry ammunition and container must provide sufficient cartridge separation -Only cartridges up to 19.1 mm (0.75 caliber) or shotgun shells may be accepted for transport
 <p>Biohazards and Infectious Substances</p>	<p>Animal or Human organs, tissues, blood, blood products, human cells, materials containing pathogens, etc.</p>	No	No	
 <p>Camping and Outdoor Equipment</p>	<p>Animal repellent (bear, deer spray), camp stove fuel, seam sealers for tents, strike anywhere matches, emergency flares, etc.</p>	No	No	<p>Forbidden from transport. Includes all flammable solids, liquids, and gases, including, but not limited to: butane, propane, kerosene, gasoline, hexamine, etc. "Strike Anywhere" matches and lighter fluid are forbidden from transport.</p>
 <p>Compressed Gases / Pressurized Containers</p>	<p>Avalanche rescue backpack, personal oxygen tanks, scuba tanks, paintball guns, etc.</p>	No	No	<p>Pressurized tanks/cylinders, including liquid/compressed oxygen cylinders* and chemical oxygen generators are forbidden from transport. Products such as "canned oxygen," "recreational oxygen" and "flavored oxygen" are also forbidden.</p> <p>*Portable oxygen concentrators (POCs) may be carried in carry-on baggage or checked baggage. Please visit Allegiant FAQ's for additional information, forms, and requirements.</p>

 Dry ice		Yes**	Yes**	<p>**Customer Service Agent must be notified during check-in</p> <p>**Limitations:</p> <ul style="list-style-type: none"> -May not weigh more than 5.5 lbs. (2.5 kg) per package and per passenger -Must NOT be in an air-tight container. Styrofoam or other plastic foam containers are not acceptable for items that may leak during transport <p>**Package must be marked with:</p> <ul style="list-style-type: none"> -"Dry Ice" or "Carbon Dioxide, Solid" -Net weight of dry ice -Contents of package

Electronic Devices

Batteries (dry cell), spare		Yes	Yes	<p>Includes typical non-lithium dry batteries (alkaline, nickel metal hydride, nickel cadmium, etc.) in the most common sizes: AA, AAA, C, D, button cell, 9-volt, etc. Batteries must be protected from damage.</p>
Batteries (lithium), spare		Yes**	No	<p>Batteries with more than 160 watt-hours are forbidden from transport. Damaged or recalled batteries are forbidden from transport.</p> <p>**Limitations:</p> <ul style="list-style-type: none"> -Must be protected from damage and short circuit -Protection methods include: leaving the batteries in their retail packaging, covering battery terminals with electrical tape, using a battery case, using a battery sleeve/pocket in a camera bag, or putting them snugly in a plastic bag or protective pouch <p>**Size Limits for Lithium Batteries:</p> <ul style="list-style-type: none"> -Lithium metal (non-rechargeable) batteries: 2 grams of lithium per battery -Lithium ion (rechargeable) batteries: rating less than 100 watt hours (Wh) per battery (2 maximum)

Article Type	Examples	Carry-On Bag	Checked Bag	Additional Information
Batteries (wet cell), spare		No	No	Exception for wheelchairs or assistive device. Please see "Mobility Aids" section. Forbidden from travel otherwise.
Battery-Powered Lighters		Yes**	No	**May be carried in carry-on baggage or on your person only when the device is protected from accidental activation. Protective measures: -Removing the battery -Placing the lighter into a protective case -Using a protective cover, latch, or locking device on the activation button
Drones		Yes**	Yes**	**Limitations: A. Carry-on Baggage: -Lithium battery does not exceed 100 watt hours (Wh) -Any signal transmitting capabilities must be able to be turned off B. Checked Baggage: -Lithium battery must be removed and carried in the aircraft cabin -Lithium battery does not exceed 100 watt hours (Wh) **Batteries, fuel cells, and parachute systems must be removed from the drone in order to be accepted for transport. Owners should consult their operator manuals prior to traveling.
Electronic Smoking Devices (cigars, e-cigarettes, pipes, vapor, etc.)		Yes**	No	**May be carried in carry-on baggage or on your person. These items are not allowed to be used onboard any flight, nor may they be recharged while on the aircraft.
Hoverboards / Self-balancing devices		No	No	Forbidden from transport. Includes, but is not limited to: electric skateboards, balance gliders, hoverboards or self-balancing boards, etc.

Article Type	Examples	Carry-On Bag	Checked Bag	Additional Information
Portable Electronic Devices		Yes**	No	<p>**Must be transported in carry-on baggage or on your person. Includes, but is not limited to: cameras, phones, laptops, tablets, hand-held games, watches, etc.</p> <p>Damaged or recalled batteries and devices are forbidden from transport.</p>
Smart Bags / Smart Luggage		Yes**	Yes**	<p>**Limitations:</p> <p>A. Carry-on Baggage: -Lithium battery does not exceed 100 watt hours (Wh) -Any signal transmitting capabilities must be able to be turned off</p> <p>B. Checked Baggage: -Lithium battery must be removed and carried in the aircraft cabin -Lithium battery does not exceed 100 watt hours (Wh)</p>
 Explosives	Fireworks, firecrackers, gun powder, signal flares, sparklers, and other explosives	No	No	Forbidden from transport.
 Flammable Aerosols, Liquids, Solids	Glues, lubricants, mace, pepper spray, tear gas, oils, paints and paint solvents, spray paints, laundry starch, cooking sprays, self-heating meals or drinks such as MREs, etc.	No	No	Containers, equipment, and engine parts that contain residual fuel or fuel vapors are also forbidden from transport.
 Hair Curler / Hair Dryer		Yes**	No	<p>**Gas refills for such curlers are not permitted in carry-on or checked baggage.</p> <p>**Cordless curling iron limitations: -Safety cover must be securely fitted over the heating element -Device must have sufficient means to protect against accidental activation</p> <p>Curling irons, hair straighteners, and hair dryers that require an electrical outlet are not restricted.</p>

Article Type	Examples	Carry-On Bag	Checked Bag	Additional Information
 Household Articles	Bleach, drain cleaners, paint thinners, other corrosive or caustic items	No	No	
 Lighters / Matches	One (1) packet of safety matches or one (1) common lighter carried on your person	Yes	No	
 Magnetic / Radioactive Materials		No	No	
 Medical Devices	Implanted medical devices (pacemakers or similar devices), radio-pharmaceuticals that have been injected or ingested, mechanical limbs or prosthetic devices	Yes	Yes	Nonflammable cylinders/gas cartridges worn in mechanical limbs or prosthetic devices are approved for transport. Spare cylinders/cartridges may be carried in carry-on or checked baggage.

Mobility Aids

Spillable battery		No	Yes**	**Limitations: - Battery must not contain any defects - Must have an effective means of preventing accidental activation (terminals protected from short circuits, battery cables disconnected) - Battery must be securely attached to the device and in an enclosed, protective housing - When it is not possible to stow the device in an upright position, the battery must be removed and placed in a battery box
-------------------	--	----	-------	--

Article Type	Examples	Carry-On Bag	Checked Bag	Additional Information
Non-spillable battery		No	Yes**	<p>**Limitations:</p> <ul style="list-style-type: none"> -Battery must not contain any defects -Must have an effective means of preventing accidental activation (On/Off switch, key turned to off and removed, etc.) -Battery must be securely attached to the device in an enclosed, protective housing -When it is not possible to stow the device in an upright position, one of the following must occur: <ol style="list-style-type: none"> a. Disconnect the battery cables b. Protect the battery from short-circuiting
Lithium-ion battery (collapsible)		Yes**	No	<p>**Limitations:</p> <ul style="list-style-type: none"> -Battery must not contain any defects -Battery must be removed from the device and carried as a carry-on -Battery must be protected from short-circuit (placement in original retail packaging, taping over exposed terminals, etc.) -Battery rating cannot exceed 300 watt-hours (Wh) -Up to two spare batteries may be carried. Each cannot exceed a rating of 100 watt-hours (Wh)
Lithium-ion battery (non-collapsible)		No	Yes**	<p>**Limitations:</p> <ul style="list-style-type: none"> -Battery must not contain any defects -Battery must be securely attached to the device in an enclosed, protective housing -Battery must have an effective means of preventing accidental activation (On/Off switch, key turned to off and removed, etc.)
Lithium metal battery		No	No	Forbidden from transport
 <p>Poisons</p>	Rat poison, ant spray, weed killer, grass killer, etc.	No	No
